

Press release

ArcelorMittal buys Münker Metallprofile

Reichshof, June 25, 2019 - After more than 40 successful years on the market, Münker Metallprofile transfers the company to ArcelorMittal Construction Deutschland GmbH.

As part of its expansion strategy in the field of roofing and facade technology, ArcelorMittal has taken over all shares of Münker Metallprofile GmbH in Reichshof with effect from June 21, 2019.

"We are pleased to integrate Münker Metallprofile, a strong premium manufacturer of metal profiles at ArcelorMittal," commented Jean-Christophe Kennel, CEO of ArcelorMittal Construction.

Managing Director Frank-Udo Münker, his management team and all employees of Münker Metallprofile remain with the company. The company location and the independent brand "Münker Metallprofile" are secured in the long term with their activities in Reichshof. In the coming years, production will be further expanded through ongoing investment. Moreover, additional employees are to be hired.

"As usual, our customers will continue to benefit from the very good quality, the high level of flexibility and on-time delivery, as well as from an extended range of services," adds Frank-Udo Münker.

About Münker metal profiles

With a production capacity of more than 100,000 tons, Münker Metallprofile GmbH is one of the largest premium manufacturers of components for lightweight metal construction in Germany. We manufacture trapezoidal profiles, corrugated profiles,

cassettes and cantilevers. All our profiles are EN 1993 approved and our production is EN 1090-1 certified. Our products are used in the economic lightweight metal construction, as a large-scale final building shell in the roof, wall and facade area. For over three decades, we supply components worldwide. The consistent orientation to the requirements of our customers and the constant further development, have made us what we are today: a quality-conscious and high-performance producer of single-shell components.

About ArcelorMittal

Germany

With a production volume of around 8 million tons of crude steel, ArcelorMittal is one of the largest steel producers in Germany. The automotive, construction and packaging industries are as much among the customers as household applications. The company operates four major production sites in Germany. These include two integrated flat steel plants in Bremen and Eisenhüttenstadt as well as two long steel plants in Hamburg and Duisburg. In addition, the Group has ArcelorMittal Construction in Sandersdorf / Brehna as a production site with distribution for sandwich panels and profiling systems for cassette, trapezoidal, load-bearing, design and corrugated profiles. In addition, the Group has a strong sales network in Germany with seven steel service centers and 16 distribution centers. ArcelorMittal employs more than 9,000 people in Germany.

Worldwide

ArcelorMittal is the world's largest steel and mining company; It is present in more than 60 countries with production sites in more than 20 countries. Following our own philosophy of producing safe and sustainable steel, we are the leading supplier of quality steel in the major global steel markets. We are one of the world's five largest producers of iron ore and metallurgical coal, and our mining activities are an important part of our growth strategy. With our geographically broad portfolio of iron ore and coal resources, we are strategically positioned to develop our steelworks network and the external global market can serve. ArcelorMittal's total revenue in 2018 was \$ 76 billion, crude steel production was 92.5 million tonnes, with iron ore production reaching 58.5 million tonnes. ArcelorMittal is listed on the New York (MT), Amsterdam (MT), Paris (MT), Luxembourg (MT) and Barcelona (Spain), Bilbao, Madrid and Valencia (MTS) stock exchanges.
